Healthmark Announces National Distribution Partnership with Rivercity Innovations
New partnership brings Canadian-designed and manufactured temperature and humidity monitoring solutions to community and hospital pharmacies across Canada.
MONTRÉAL, QUÉBEC – [November 2, 2026] – Healthmark, a division of Richards Group, is pleased to announce a new distribution partnership with Rivercity Innovations, a Canadian technology company specializing in automated temperature and humidity monitoring solutions.

Through this partnership, Healthmark will distribute Rivercity Innovations' wireless monitoring solution to community and hospital pharmacies across Canada, expanding its portfolio of products and technologies designed to support pharmacy operations, improve efficiency, and protect valuable pharmaceutical inventory.
Maintaining appropriate storage conditions is essential to preserving the integrity of medications, vaccines, and other temperature-sensitive products. Rivercity Innovations' solution simplifies this critical responsibility through continuous, automated monitoring of temperature and humidity conditions. With real-time alerts, centralized monitoring, and automated reporting, the system helps pharmacy teams reduce manual monitoring tasks, respond quickly to potential temperature excursions, and maintain reliable records to support quality assurance and compliance requirements.
Designed and manufactured in Canada, the solution offers a practical, scalable approach to environmental monitoring, suitable for both individual community pharmacies and larger hospital pharmacy environments.

Michael Bussieres, Senior Vice-President
“At Healthmark, we're always looking for innovative, practical solutions that help pharmacies operate more efficiently and better serve their patients. We're particularly pleased to partner with a Canadian manufacturer like Rivercity Innovations, whose technology addresses a critical need in pharmacy operations. This partnership is a natural fit with our commitment to supporting both community and hospital pharmacies across Canada.”

Sue Timmerman, Chief Operating Officer
“We are proud to partner with Healthmark, a respected Canadian company that shares our commitment to innovation, quality, and patient safety. This partnership marks an exciting milestone for Rivercity Innovations, allowing us to expand access to our Canadian technology across hospitals, pharmacies, clinics, and other healthcare settings nationwide. By combining our automated temperature and humidity monitoring solutions with Healthmark's experienced team and established distribution network, we can help healthcare providers protect temperature-sensitive medications, reduce operational burdens, and strengthen cold chain compliance. We look forward to a successful partnership that delivers lasting value to healthcare organizations and the communities they serve.”

Rivercity Innovations' temperature and humidity monitoring solution will be available through Healthmark's national distribution network. Pharmacy customers interested in learning more are encouraged to contact their Healthmark representative.

About Healthmark

Healthmark, a division of Richards Group, is a Canadian supplier of products, equipment, and solutions serving community and hospital pharmacies nationwide. Headquartered in Quebec, Healthmark offers a broad portfolio designed to support pharmacy operations, improve efficiency, and enhance medication management.

About Rivercity Innovations

Rivercity Innovations is a technology company, headquartered in Saskatchewan, specializing in wireless monitoring solutions that help organizations protect valuable inventory, automate environmental monitoring, and improve operational efficiency.
